Curriculum Overview

- In Route 1, pupils build on the knowledge and understanding, skills, attributes, and values they have acquired and developed during the primary phase. PSHE education acknowledges and addresses the changes that young people experience, beginning with transition to secondary school, the challenges of adolescence and their increasing independence. It teaches the knowledge and skills which will equip them for the opportunities and challenges of life. Pupils learn to manage diverse relationships, their online lives, and the increasing influence of peers and the media.
- During Key Stage 3 and 4, pupils deepen their knowledge and understanding, extend and rehearse skills, and further explore attitudes, values and attributes acquired during key stage 1 and 2. PSHE education reflects the fact that pupils are moving towards an independent role in adult life, taking on greater responsibility for themselves and others.

During Key Stage 3 and 4, pupils deepen their knowledge and understanding, extend and rehearse skills, and further extend their understanding of attitudes, values and attributes acquired during Key Stage 1 and 2. PSHE education reflects the fact that pupils are moving towards an independent role in adult life, taking on greater responsibility for themselves and others.
